REEDING EVIDENCE (B.E) CODE	S					
<u>DBSERVED</u>				Agitated behaviour or alarm call		
Observed but not in suitable nes	ting habitat		В	Brood patch or cloacal protuber	ance on an ac	lult

POSSIBLE BREEDING

- H In suitable nesting habitat in breeding season
- S Singing/calling/drumming associated with breeding in nesting habitat in breeding season

PROBABLE BREEDING

- M Multiple (≥7) individuals singing/calling/drumming heard on the same date and in the same square
- P Pair observed together in suitable nesting habitat
- T Presumed territory = presence of an adult bird, at the same place, on ≥2 visits, one week or more
- **D Display** involving male & female (display, courtship feeding, copulation) or antagonistic behaviour between ≥2 individuals (territorial disputes or
- V Visiting a probable nest site in suitable habitat

- N Nest-building by wrens or woodpeckers

CONFIRMED BREEDING

- **NB Nest building**, including carrying nesting material (except wrens and woodpeckers)
- **DD Distraction display**, attempt to draw attention away from nest/young by feigning injury or other distraction
- **NU** Empty **nest used** during atlas survey period, or identifiable egg shells
- FY Recently fledged or downy young incapable of sustained flight
- **AE** Adult occupying, leaving or entering a probable nest site or behaviour suggesting an occupied nest
- FS Adult carrying a fecal sac
- CF Adult carrying food for young
- NE Nest containing one or more eggs
- **NY Nest** with one or more **young** (seen or heard)
